TOP STORIES

For Second Time in a Year, Baltimore Hit With Ransomware

Officials have shut down a majority of the city's servers as a precaution, according to a spokesperson for the mayor's office. Meanwhile, core services like fire, police and emergency medical services remain operational. READ MORE

New Homes Must Be EV Charger-Ready Under New Seattle Rule

A new law in Seattle will require new home construction with off-

street parking to be wired for electric vehicle charging units, part of a push by the city and the state of Washington toward EVs. READ MORE

Advanced Drone Technology Spreads Its Wings in Ohio
A new high-tech radar system called SkyVision, developed by Ohio's Department of Transportation and the Air Force Research Laboratory, will allow drones to fly beyond the visual line of sight. READ MORE

Code for America Gears Up for Annual Summit in Oakland
The leading civic tech organization, known for its disruptive approach to using technology in government, will welcome a wide range of guests, including speakers from the private sector, public sector and nonprofits. READ MORE

QUESTION OF THE DAY

How much does this 3-D printed dress weigh?
ANSWER

CONTENT PROVIDED BY BLACK & VEATCH
Infrastructure that Transcends Time
Civic leaders are worried about service delivery and staying competitive. Digitize physical infrastructure to engage better with citizens, build resilience, and evolve with future innovation.
